POLLARD RESIGNS POST WITH STATE

World Conference on Lowering Tariff Barriers Is Sought

HOME TOWN STUFF

Prompted, he says, by an editorial recently published in a Texas metropolitan paper emphasizing the need of saving vast quantities of historical data through the publication of histories of the various counties, a friend of this column suggests that some organized effort should be made to compile and publish a history of Wilbarger County.

This column quite agrees with the friend that such a work would be both interesting and of great value. Wilbarger County is still young, as ages of counties go, and it would be comparatively easy to collect and verify data concerning the early settlement, growth and development of Wilbarger County. There are people still living who could furnish much first-hand information concerning the early history of the county, but within a very short time these will be gone and the historian will have to rely upon the meager public records and the second-hand recollections of those who have talked with the real pioneers.

Texas without doubt has the most romantic history of any State in the Union and if the vast amount of historical data is ever collected and saved Texans must do the job. The history of many of the older states is well preserved because their history is a very large part of our national history. With Texas, however, the situation is entirely different. Texas, in a very large measure, had to carve out her own history and the history of Texas touches only here and there with our national history. There have been some very fine Texas histories written, but there are very few county histories. Wilbarger County has plenty of romance in her early history and some of it that is not quite so early. It ought to be preserved. Who will come forward with a plan? There are plenty of people capable of doing the work, if it is financed.

If Wichita Falls wins the second half of the regular Texas League season, as now seems certain, there will be plenty of business for some of our people to attend to in Wichita Falls next week during the play-off with Dallas for the season's pennant. Dallas is a big town and has plenty of things to brag about without winning the Texas League pennant. Besides the attendance ought to be good in Wichita Falls. Our cotton picking is not well started yet and most of us can get away for one or two afternoons to see a Dixie series game. Down around Dallas they are right in the midst of the cotton picking season.

A man was heard to remark the other day that he never drank until prohibition was adopted and then to show his resentment at the passage of what he considered an unfair infringement of his liberties he started drinking and has kept it up. He shows it.

There is a story about an old half-breed Indian of the West, who resented the coming of civilization into what had once been his empire of the range and forest. The railroad was his particular aversion and he concentrated his hatred upon the steam locomotives that thundered through his region. He would mount his horse and gallop alongside the track and try to rope the smokestack of the engine. One night he finally succeeded in throwing the loop over the smokestack. They found his mangled body the next day, and buried it. The trains are still running through that country.

The coast guardsmen had just returned from a search which extended along the shore between Grand Haven and Chicago. No wreckage was found.

New York, Sept. 12.—(P)—Cotton opened steady at an advance of 14 to 20 points. Active months showed net gains of 17 to 21 points during early trading on covering and local buying promoted by relatively steady cables and talk of too much rain in the south. December sold up to 19.14 and March to 19.36 and while the advance met some southern selling, as well as realizing or liquidation, the market held within a point or two of the best at the end of the first half hour.

Futures closed steady, 18 to 23 higher. Spot steady; middling 19.00. The early advance extended to 19.16 for December and 19.38 for March during the middle of the morning, or about 20 to 22 points above yesterday's close. Bulk of the buying was attributed to covering, while offerings increased at the higher figures, and the market later reacted under realizing or liquidation combined with some southern and local selling. By mid-day December was selling around 19.07, or within 3 points of yesterday's close.

New Orleans, Sept. 12.—(P)—The cotton market was firm in early trading advancing approximately 8 1/2 to 10 points on buying induced by unfavorable weather and higher cables than due.

First trades showed gains of 11 to 16 points and the market continued the advance under demand stimulated by indications of rain in Louisiana and Arkansas where there is much open cotton. October traded up to 19.05, December 18.84 and January 19.05, or 14 to 21 points above yesterday's close. Towards the end of the first hour prices eased off 4 to 5 points. The undertone continued steady.

Hedge selling was encountered later and there was also a disposition to sell on prospects for better weather in the west. British board of trade statistics for August were considered bearing and added to the subsequent decline which carried October to 18.55, December 18.54 and January 19.05, or 14 to 15 points under the highs but still 5 to 6 points over yesterday's close. At mid-session the market was steady but at or near the lows.

Chicago, Sept. 12.—(P)—Influenced by reports of rain in Argentina, wheat prices here averaged lower early today. A steadying influence was that for the first time of late a decrease appeared in shipments of wheat from Argentina.

COULDN'T WORK HALF THE TIME

"I'm telling everybody that the wonderful change in my health is due entirely to Sargon."

"I began to think I never would get well from a bad case of stomach trouble. My food wouldn't digest right, my liver was sluggish and I was always bilious. I often had such nervous spells I would have to stop work and go home. I got to where I could not work more than half the time."

"Sargon has just worked wonders for me. I'm free of stomach trouble for the first time in six years. I eat whatever I want and my digestion is perfect. I am now working all day every day and never have to stop and rest. Now, my wife and several friends are taking Sargon. My wife says 'there's nothing on earth like Sargon' and I certainly agree with her."—W. T. Mullens, 2768 Gladstone Drive, Dallas.

SPUDDERS ARE EXPECTED TO CINCH PENNANT TODAY

FINAL SERIES OF SEASON TO OPEN TODAY WITH WICHITANS ONLY HALF GAME FROM TITLE

(By the Associated Press)

Friday the thirteenth in some circles has not been the best day in the year to embark upon lofty enterprises, but it promised to be a real letter day for Wichita Falls. Jim Galloway's sluggers were destined to wrap up the second half of the Texas League chase today.

By winning their sixth straight yesterday at the expense of Houston, the Spudders held their two and one-half game margin over Shreveport and approached within three games of schedule's end. The only way the Oilers could keep out of a play-off with Dallas next week would be to drop their three remaining contests while the Sports were winning a like number. In that event the Louisianians would nose out by a half game. The final go-round started today.

Cubs Worrying Over Hitting of Foxx and Simmons

Philadelphia, Sept. 12.—(AP)—Joe Tinker, scouting the Philadelphia Athletics for the Chicago Cubs, believes that to beat the A's in the world's series, the Cubs will have only to stop Al Simmons and Jimmy Foxx from hitting.

"If we can stop Simmons and Foxx," Tinker said today, "the series is ours. They are the only men we are afraid of. The Athletics have a good ball team, but the kid on first and the big boy in the outfield are the only ones we'll worry about."

"Hass and Miller are good ball players, and Mickey Cochrane is a great catcher, but good as they are, the fellows that worry me are Simmons and Foxx. Them and George Earnshaw; maybe Jack Quinn, too."

"The Cubs will murder Grover and Walberg. Our players eat up southpaws. Earnshaw may bother us and Old Jack Quinn may give us trouble. Old Jack's ben around a long while. I often look at him working out and wonder why I'm not still playing myself."

Tinker, who was a sparkling member of the old double-play combination—Tinker to Evers to Chance—played in the world's series against the Athletics in 1910.

FIVE CAPTAINS OF SOUTHWEST ARE LINESMEN

Aggies and Porkers Only Two Teams To Be Captained by Backfield Men—Ends, Tackles and Guards to Have Their Share of Honors.

Dallas, Sept. 12.—(AP)—The lowly linesman, popularly regarded as the man who does most of the work and gets the least credit, will not be so lowly in the Southwest Conference during the approaching football season.

Five of the circuit's seven teams will be captained by the boys in the trenches. Every one of the five is an outstanding performer of all-conference calibre.

The only two leaders who will do their chores from the backfield are Tommy Mills, Texas Aggie halfback, and Clarence Geis, Arkansas quarterback. Mills was a star last season, but little was heard of Geis, due largely to the presence of "Bevo" Beavers in the Porkers' backfield.

Gordy Brown, an almost unanimous selection for all-conference tackle last season, will lead the Texas University Longhorns into battle. Brown is regarded as one of the greatest linesmen in the school's history.

Choc Sanders, big Indian guard, who was placed on the New York Sun's all-American eleven after Southern Methodist University's visit to West Point last autumn, will captain the Ponies. Coach Ray Morrison already has prophesied Sanders will make one of his finest leaders.

The Baylor Bears, conference favorites, will have Weldon Lucas, a scrappy end, at their helm. Lucas was almost all-conference calibre, and he is expected to have his greatest year.

Lester Brumblow, another big tackle, who was placed alongside Gordy Brown on numerous all-conference, eleven last season, will be the guiding spirit of the Texas Christian Horned Frogs.

Bushy Jones, a scrapping guard, will do the pre-game coin-flipping for Rice. Although playing with the conference "weak sister" last year, Jones was recognized as one of the circuit's outstanding players.

BIRMINGHAM HAILED AS SOUTHERN CHAMPIONS

Atlanta, Ga., Sept. 12.—(AP)—Birmingham was hailed today as the 1929 champion of the Southern Association. The Barons clinched the pennant yesterday with two close decisions over Chattanooga. The double victory put the barons three and one-half games ahead of Nashville, and only three games remained to be played. Nashville continued the hopeless chase by defeating Atlanta.

LEADERS NEED THREE GAMES

MAJOR LEAGUE ARMISTICE IN PROSPECT FOR THIS WEEK END

(By the Associated Press)

The Athletics moved one game nearer their pennant yesterday by winning, but the Cubs advanced just as rapidly through a defeat as the Giants were smearing the Pirates, 3 to 5. Each of the leaders now needs three victories, with the armistice in prospect perhaps by Sunday night.

The success of McGraw against the Dreyfuss dragoons for a third time in two afternoons gave Jewell Enns further cause to wonder whether his forces can hold second place. The Pirate margin now is three and one-half games, with Carl Hubbell, the Pittsburgh jinx, ready for four straight today. If Jess Petty can halt the Giants today, the Pirates may feel fairly safe in second place. Another Giant victory, however, would shave the margin down past the danger point, and would leave the Pirates in an uneasy frame of mind.

The Giants won through the craft of Freely Fitzsimmons in the numerous pinches and their own ability to bunch blows on Remy Kremer. Melvin Ott hit his thirty-eighth home run, but failed to pull up even with Hack Wilson and Chuck Klein, who hit one apiece in Chicago to preserve their tie and their lead of one over the Giant outfielder. Each now has 39.

A freak blow by Horace Ford for four bases with one Red on the paths enabled the veteran Eppa Rixey to shade Dazzy Vance and the Robins at Cincinnati, 3 to 2, in the second game of the series.

Rain in St. Louis built up a double header for the Braves and the Cardinals.

After the White Sox had chased Babe Goldberg from the mound with a two-run flurry which tied the score at 3 to 3 in the sixth, the Athletics pushed home one in the eighth run, 4 to 3. Eddie Rommel got credit for the victory, made possible by Joe Boyle's pinch single.

The Yankees finally broke the spell woven about them by the Browns, winning, 5 to 2, after five straight losses in their previous five engagements against the St. Louisans, but the runs came hard off Sammy Gray. Walter Miller held the Senators helpless, and Cleveland won the second game of the series, 5 to 1. Arthur Herring, who shows some signs of being a pitcher, tossed the Tigers to a 2 to 1 victory over the Red Sox in Boston. Ed Morris was the victim. I was Herring's first major league start, following his purchase from Oklahoma City by the Tigers.

New York, Sept. 12.—(AP)—Columbia University's football team has decided to abandon the huddle system of calling signals and return to the old method of having the quarterback do that part of the job. Only in emergencies will the huddle be used, Coach Charley Crowley has announced. Crowley believes the huddle has delayed the game and that it is not as effective as the old method.

Lions to Clash in Practice Tilt This Afternoon

A practice game of 40 minutes is scheduled for the Vernon High School Lions this afternoon as they complete their second week of training camp. The squad of 45 men has been temporarily cut to 34 men with definite assignments of positions giving the coaches three teams to work with. The fourth team is at present in charge of Don Johns and is being drilled in the same fundamentals as the 34 under the direction of Coaches W. C. Weir and Ralph Binion.

A re-assignment of men will be made early next week and the players trying for each position will be announced. The present organization was announced this week to enable the coaches to form a more systematic plan for the daily sessions with the pigskin.

Fourteen plays have been given the candidates and the coaches are bearing down in drilling the Lions through their paces. The Chillicothe High School asked for a practice game with the Lions today and were invited to come to Vernon to play. No answer was received early this morning and the regular scheduled scrimmage will be held this afternoon.

The candidates were issued ankle wraps yesterday afternoon and will wear them in each practice session, as well as in games. The coaches are taking every precaution to protect the health and physical condition of their charges.

QUANAH GOLF TOURNEY WILL OPEN MONDAY

Elaborate Entertainment To Be Offered for Visitors Each Day, Culminating in a Dance and Bridge Party Tuesday Evening.

Quanah, Sept. 12.—The stage is all set for the qualifying rounds of 18 holes at the Quanah Country Club in the first annual invitation tournament which starts at 8:30 o'clock next Monday morning.

Officers and committees have planned for this initial invitation event and perfected the plans so that every green and fairway and tee is in perfect condition. The hostess committee, Mrs. N. W. Walton, chairman, will offer elaborate entertainment for visitors each day, culminating in a dance and bridge party Tuesday evening at the club house. Visiting women will be greeted at the clubhouse each day by members of the hostess committee.

Early in 1929 the Quanah Country Club acquired 150 acres additional land, and Bill Strachan, golf expert of Wichita Falls, laid off an additional nine-hole course, making this among the few 18-hole course links in this section of Texas. The invitation tournament is a sort of dedication ceremony for the opening of this course to the golfers of this section.

Strachan will act as starter and assist in the general conduct of the tournament.

TILDEN TURNS BACK VAN RYN IN TENNIS DUEL

Forest Hills, N. Y., Sept. 13.—(AP)—The habit of victory, is carrying Big Bill Tilden nearer to his goal of seven national singles championships.

First the 19-year-old New Yorker, Frank Shieff, and then the former Princeton tennis captain, Johnny Van Ryn, fired an e-phatic challenge at him across the West Side Stadium nets, only to fall before the sheer skill power of a man who believes he still is good enough to beat any player in the United States.

Van Ryn's bid came in the quarter-final round yesterday, and as in the Tilden-Shields duel of two days before, the battle was on and lost in a furious struggle for the third set. The final score was 7-5, 2-6, 9-7, 6-2.

Attempt Made to Dynamite Another New Orleans Car

New Orleans, Sept. 13.—(AP)—Police and deputy marshals increased their vigilance against strike disorders today after an attempt last night to dynamite another street car. A car was blown from the tracks Wednesday night a few hours after rejection of a strike settlement plan by the carmen's union.

A package of five sticks of dynamite was hurled from a speeding automobile on to the platform of an Esplanade Belt street car last night, but it did not explode.

Motorman George Leach said the automobile was running without lights and passed the street car on a curve. The dynamite, thrown on the front platform, struck the motorman's leg. Leach said several men were in the automobile. He was too excited to get the license number. Three passengers were on the trolley.

Denver Girl Says She Unwittingly Sent Bank Wires

Denver, Colo., Sept. 13.—(AP)—E. B. Averill, special operative of a Denver investigating service, said today Miss Frances Carlson, 18, stenographer in the Bank of Telluride, told him that "unwittingly" she sent from Denver two of the six faked telegrams by which C. D. Waggoner sought to defraud six New York banks of \$500,000.

Miss Carlson is one of the persons subpoenaed by a federal grand jury in New York. Averill arrived here yesterday with Clarence E. Downton, cashier of the Bank of Telluride, also subpoenaed.

The young woman told the detective she had sent the telegrams from Denver at the request of a woman who she did not know and who told her it was to be done for Waggoner.

In addition to a signed statement from Miss Carlson, Averill said he had in his possession a "practice sheet" on which the young woman had copied the faked telegrams dictated to her by Waggoner. The detective said the "practice sheet" bore the names of the six Denver banks signed to the telegrams that resulted in building up \$500,000 credit in New York.

Defense Directs Fire on Evidence Against Pantages

Los Angeles, Sept. 13.—(AP)—Defense attorneys today directed evidence which the state, during six days and a half of testimony had marshalled against Mrs. Lois Pantages, on trial in Superior Court, charged with second degree murder.

The state has contended the wife of Alexander Pantages, theater magnate, was intoxicated when her automobile collided with a car driven by Juro Rokumoto, a Japanese, last June. Rokumoto, died several days after the accident.

The defense, when it took over the case yesterday, already had indicated its chief point would be that an intervening operation might have caused the death of the Japanese. Physicians appearing as state witnesses testified under cross examination that the operation performed upon Rokumoto was not an emergency one.

AMERICAN BANKERS NAMED ON HAGUE COMMITTEE

New York, Sept. 13.—(AP)—The New York Times says today that Jackson E. Reynolds, president of the First National Bank of New York, and Melvin A. Traylor, president of the First

National Bank of Chicago, have been appointed American representatives on the sub-committee created by the Hague reparations conference to draft statutes of the bank of international settlements.

They were named by Owen D. Young, author of the reparations plan, of which the international bank is an important factor, and J. P. Mor-

gan, delegate to the Paris Experts Commission, which adopted the Young plan.

STORM CAUSES BIG LOSS OVER SOUTHERN FRANCE

Marseilles, France, Sept. 13.—(AP)—A storm of considerable violence rag-

ing over Southern France during the night probably did damage aggregating several million dollars. Damage to buildings, vines, and the olive crop in the Toulon district alone was estimated at more than \$1,000,000.

Lower parts of Toulon and other towns were flooded. Railroad communication between Marseilles and Nice was interrupted for hours, and many roads were impassable.

Chinese Arrest 300 Russians in Manchurian Area

Harbin, Manchuria, Sept. 12.—(P) Chinese Manchurian authorities during the 48 hours ending at midnight completed arrests of 300 more Soviet Russian citizens, all were in-

terned.

Reports from the front continued conflicting, with official dispatches stating the Soviet troops abandoned Chalanor and Pogranichnaya September 9, although Soviet airplanes continued to fly over the border cities and as far inland as Mulin.

It was said the Soviet flyers dropped leaflets over Pogranichnaya, stating, "we won't bombard you again, thanks to your bread and salt," which is a popular Russian saying equivalent to "thanks to your hospitality."

It was assumed the Russians obtained food and other stores during their occupation of the city.

The Japanese consul general here reported he was advised of unidentified Japanese official was killed during the bombardment of Pogranichnaya. There was no further news from Manchuli, western frontier city.

PLAN NOW

to enjoy the comfort—the
convenience—**GAS**
of an Automatic
FURNACE
..... this winter!

GAS

Natural gas is always clean... always cheap... always easily handled... is doubly convenient with the modern gas furnace! There's new warmth, new comfort, new luxury, new efficiency!

With an automatic gas furnace, you have an even temperature all through your house, regulated to any desired degree of warmth. The automatic regulator turns the fire up early in the morning, heating the house comfortably before you arise; keeps rooms at a healthful temperature all day long; turns the gas low at night! It's more than human in its efficiency!

You simply light the gas in the fall, turn it off in the spring! And there's no waste... the automatic control decreases or increases the flow of gas as the temperature requires. Safe... economical! Saves time, labor, money!

Investigate the automatic gas furnace now, so that you may enjoy modern heating comfort and convenience THIS winter! The results of our own exhaustive investigations are yours to command. We invite you to talk over your heating problem with us now.

TARIFF FOR INDUSTRY

The Democrats have launched their attack on the tariff bill, but even an optimist can find little hope that they will be successful. The tariff exponents are far too strong ever to be halted by the Democrats with even a solid front, and then a few Democrats will be enticed away from the party's fundamental principles by the offer of local benefits. This offer of increases on local commodities has never been a specious argument for tariff, one that the politician can safely offer to the majority of his constituents who although they subscribe to the principles of the Democratic party really appear to desire to sell their own commodities in a protected market and require everyone else to sell in an open market. Protection is all right as long as it is kept at home, seems to be their attitude.

True Democrats are not hard-pressed to find grounds for opposition to the present tariff bill, so sweeping is it in character. Briefly it raised the duties on more than 1,000 commodities and almost every consumer's burden will be increased for whereas the duties will be increased on the one or two commodities he has to sell he will be forced to pay higher prices resulting from increased duties on practically every article he buys.

As The Record sees it, the manufacturer will profit chiefly from the bill. The increases will mean thousands of dollars annually because of the volume he handles, whereas to the farmer they will mean but little. Where the tariff is fundamentally supposed to protect the manufacturer and his labor from the unfair foreign competition based on cheap labor, we of today can hardly view it as anything but a contributing factor to inefficiency. We have heard so much of efficiency in American industry that we are a bit surprised to learn that instead of advancing toward the stage where it can compete unaided with foreign competition it is needing increasingly higher duties year after year in order to protect it from foreign competition. This seems to refute the efficiency of American efficiency.

AMERICA'S CARELESSNESS

Americans have become famous throughout the world for their efficiency. We are noted for ability to solve knotty problems. We accepted it as a matter of course for an American to be selected to head the reparations experts who were called upon to solve one of the most intricate problems the world has ever known. Similar tributes to American efficiency are paid almost daily.

Yet there is evidence that, as a people, we are developing into one of the most careless attitudes in the world and carelessness is incompatible with efficiency.

Consider the cost of crime to the

"your HAT cleaned Sir!"
BUT it IS yours! True, it doesn't look at all like the battered and soiled article you brought in; but we can do more tricks with hats than Houdini in his palmist days. Cleaning and blocking.
75c

American people. Compare it with that of other nations. Figures on thefts and homicides offer nothing to excite pride in the hearts of Americans. Other supposedly less progressive nations pay a much smaller toll per capita to crime each year. But we are not doing anything extraordinary about it. American genius not only has failed to curb his waste, but apparently has been only slightly interested in it. We lose millions of dollars annually through this channel of waste.

Likewise we see hundreds of persons killed and a tremendous property damage sustained each holiday without being moved materially. Apparently we have come to regard a long death list as an inevitable part of our holiday observance. We read where more than 200 persons lost their lives during the Nation's observance of a holiday without stopping to think that everyone of these tragedies, and the hundreds of others of a less serious nature, was due to someone's carelessness.

There are two problems that American efficiency has not solved. The solution will be difficult to achieve, because it is largely up to the individual. If each man resolved to be as careful as he can, so that neither he nor anyone he encounters will be put in danger, the accident situation can be corrected. Likewise, if each law-abiding citizen of the Nation would resolve that he would do all within his power to see that the laws of his country are enforced and observed, the crime problem would be solved.

It is up to the people, and it must be admitted that the masses are not as efficient as a comparatively small number of leaders, aided by modern machinery, have made them appear.

MERKEL, TEXAS, STOCK FARMER ENDORSES IT

"Orgatone Has Certainly Made
a Well Woman Out of My
Wife," Says M. Carter.

"My wife and I both think Orgatone is just fine, for it has certainly helped her," said M. Carter, a prominent and well known stock farmer living on rural route No. 4, Merkel, Texas, while talking with the Orgatone man.

She suffered a long time with indigestion and stomach trouble. She was in a very run down condition and was always complaining of not feeling good.

"She was always sluggish and tired and felt bad all the time and didn't have any life or energy about her. Food would sour on her stomach after eating and this would make her miserable for hours."

"We kept reading the statements in the Abilene papers and decided that it wouldn't do her any harm to take a bottle. She has taken two bottles and it greatly improved her. She does not complain any more and feels as good as she ever did. Her indigestion does not bother her any more and she can eat anything she wants and says she never felt better. I saw what it had done for my wife and I feel confident that it will help others as it did her. We are both glad to say a good word for it. It has proved its worth to us."

Genuine Orgatone is manufactured by one of the world's largest laboratories and is not a so-called secret or patent remedy but a new scientific treatment and is sold in Vernon by the Vernon Drug Store. Adv.

ARMS ACCORD BELIEVED NEAR

M'DONALD'S DECISION TO VISIT UNITED STATES STRENGTHENS VIEW

Washington, Sept. 13. — (AP) — The prevalent belief that Great Britain and America are on the verge of complete accord upon the problem of naval disarmament was regarded today as materially strengthened by Prime Minister Ramsay MacDonald's decision to visit America for personal conferences with President Hoover.

This view was held by such high officials of the government as Secretary Stimson and Undersecretary Cotton of the State Department, who have spent many hours within the last few days in consultation with President Hoover upon negotiations with Great Britain.

Secretary Stimson is of the opinion the latest note to the London Government, product of the recent White House conferences, could have led Premier MacDonald to believe an agreement would be reached. Cotton interpreted the Prime Minister's decision as meaning "We are near enough to an agreement to have him

come." Comment from the White House was lacking.

Meanwhile, contents of the note to Great Britain were zealously guarded secret. There were indications, however, that counter proposals on methods of attaining parity in cruiser strength were embodied in the communication, representing a revision of the former American position on this point.

Great Britain is believed to have agreed to reduction in its planned cruiser strength from 70 to 50 ships, and it is understood that President Hoover, has relinquished to some extent the reduction policy which he has been hopeful of affecting for the United States. As matters now stand, it is thought, the American navy would have to be built up to reach the limitation that might be agreed upon.

NO TRACE OF MISSING AMUNDSEN ON ISLANDS

On board the Soviet icebreaker Sedov in the Arctic, by wireless to Moscow, Sept. 12.—(AP)—Any hope that the heroic explorer, Roald Amundsen, or the Alexandri group carried away with the envelope of the wrecked Italian dirigible Italia in 1928, might have taken refuge on the Russian island of Franz-Josef-land was dispelled today by the Russian scientific expedition on this icebreaker.

Prof. Schmidt, Russian scientist and geographer, announced no trace had been found in any of the sea-coast settlements on the huge island of the heroic Norwegian or his companions.
